Telemeeting Agenda

January 18, 2011, 10:30 – 11:30

1-877-413-4790 conference ID 3381344#

Introduction

The forum is the 9th of monthly opportunities to share knowledge about incorporating Hazus Risk Assessment into disaster reduction decisions in Canada. The NRCan Quantitative Risk Assessment Project of the Public Safety Geoscience Program supports the forum until March 2013.

Suggested telemeeting program :

1. Introductions and program
2. Your News and Opportunities
3. Vignette: Flood risk assessment project for Chilliwack, British Columbia; Kris Holm, BGC Engineering Inc, Vancouver, British Columbia.
4. Discussion

Your News and Opportunities

What's Your Hazus News?

Anyone ask you about Hazus?

Your organization thinking of using Hazus?

Any work you did that uses Hazus or should have used Hazus?

You talked someone into joining the CanHUG to find out what its all about?

Podcasts (Reminder)

Jamie Caplan created podcasts of CanHUG and RAUG presentations and they are available at <http://www.usehazus.com/hugs/podcast/> and on iTunes. She makes podcasts of presentations at various Hazus User Group meetings in the States and posts those. Check them out. Follow @usehazus

CRHNet 2012 call for sessions. (Annual Symposium, October 24- 26, 2012, Sutton Place Hotel, Vancouver, BC)

Call for special sessions is formally closed: Call for abstracts will come out in February.

A Hazus session has been proposed by prospective chairs: Nicky Hastings, Kelly Stone and Bert Struik

For back ground information about symposium see: www.crhnet.ca and follow it on twitter @CRHNet2012

Hazus Overview Webinars

Set aside these dates.

NRCan has *tentatively* scheduled two separate Hazus overview webinars for February 2012. Note new dates since last time.

1. Hazus Earthquake module: February 1, 2012 at 10 am Pacific Time. Demonstrates the earthquake module capabilities of Hazus-MH developed by the United States by the Federal Emergency Management Agency (FEMA), incorporating information on the Canadian context.
2. Hazus Flood module: February 2, 2012 at 10 am Pacific Time. Demonstrates the flood module capabilities of the US FEMA version of Hazus-MH, incorporating information on the Canadian context

NRCan will email an invite with webinar connection information to the complete CanHUG and RAUG mailing lists when the details for the webinars has been finalized.

Vignette: Flood Risk Assessment for Chilliwack, British Columbia; Kris Holm, BGC Engineering Inc., Vancouver, BC.
